

VIPER

BICYCLE RACK

VIPER BICYCLE RACK

The Viper has been specially developed for outside bicycles such as bicycles with baskets and crates. These bicycles can often not be parked in regular bicycle system due to the wide front fork. The Viper is a bicycle rack that distinguishes itself from other solutions by the optimal use of space and the support of the bicycles.

VARIANTS

VIPER

The Viper is a single-sided bike rack with ramp and has a hoh dimension of 45 cm. The Viper is especially for outdoor bikes. The mounting is on solid ground or with concrete piles.

SPECIFICATIONS

Model	Number of bicycle spots	Center-to-center distance	Width
Viper 2 - single-sided	2	450 mm	900 mm
Viper 4 - single-sided	4	450 mm	1800 mm

CERTIFICATION

The Viper has been awarded the FietsParKeur quality mark. This means that the Viper meets the requirements set by the FietsParKeur foundation to guarantee the quality of the bicycle racks.

AVAILABLE COLOURS

The Viper is standard in galvanized steel, but can be delivered in any RAL colour if required.

VERSIONS

The Viper is available in single-sided.
